DETAILED ACTION

Claim Rejections - 35 USC § 102

➤ Claims 1, 3-5 and 10 are still rejected under 35 U.S.C. 102(e) by Shao et al. (US Pat. No. 6,124,194). See last Office action, mailed on January 31, 2002.

Claim Rejections - 35 USC § 103

➤ Claims 2 and 6-9 are still rejected under 35 U.S.C. 103(a) by Shao et al. (US Pat. No. 6,124,194) in view of Yeouchung et al. (US Pat. No. 6,001,693. See last Office action, mailed on January 31, 2002.

Response to Arguments

➤ Applicant's arguments filed June 11, 2002 have been fully considered but they are not persuasive. Applicant argues that the invention of Shao et al is made by a different process, which results in a "large" structure. However, the Examiner disagrees. First, the method uses by Shao et al. is of no concern when the claimed structure is taught by Shao. Second, the claimed structure does not include limitations as to size. Thus, Applicant's arguments are not persuasive since Shao teaches the claimed structure.

➤ With regard to the arguments about the first cap layer, Applicant should note that Shao et al anticipate such a limitation. For example, Figure 4 shows a first cap layer (28) having a via formed therethrough (e.g. consider the opening formed between left and right portions of the first cap layer (28)), such that the lower Cu metal layer (26) is exposed and electrically connected to a lower barrier layer (36). Further, the second cap layer (40, 42) can be found in Fig. 10 of Yeouchung et al. Therefore, Applicant's

argument are not persuasive since the combination of references teach "all the claim limitations."

Conclusion

➤ **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
